CONFERENCE

Presentations will be lecture style and designed to provide information about the most common types of forensic evidence located at scenes of animal cruelty resulting in the death of the animal.

Funding is provided by:

American Society for the Prevention
of Cruelty to Animals and

William R. Maples Center for Forensic Medicine at the
University of Florida

COURSE OBJECTIVES

To raise awareness over the various forensic science disciplines that can be utilize in cases of animal neglect, cruelty and death. Topics will include veterinary forensic pathology, forensic archaeology, human vs. non-human bone analysis, and expert witness testimony. The attendee become better able to document and process crime scenes involving animals and become more proficient at providing expert witness testimony.

CEU CREDIT

Continuing Veterinary Medical Education Credits will be provided. Additionally, CEU's will be awarded for all attendees to this program.

The **William R. Maples Center for Forensic Medicine** at the **University of Florida**, in conjunction with the **American Society for the Prevention of Cruelty to Animals** presents a three day conference on veterinary forensic sciences. This conference is the Third Annual Veterinary Forensic Sciences Conference hosted by the William R. Maples Center for Forensic Medicine.

The mission of the IVFSA is to promote education in the forensic sciences to those responsible for the investigation of animal crimes. The IVFSA will also enhance technology transfer between investigators and scientists to modern analytical and forensic techniques can be utilized at the scene of animal crime.
